

Congratulations to our June 2010
Employee of the Month

Pat Holland

Clinical Services

Pat Holland demonstrates who we are looking for in our top team members of our health department. We applaud her on her passion and hard work. By being a patient teacher to all employees old and new alike, Pat **makes a point**. Pat **makes it happen** with her initiative and willingness to take on the role as lead-person in the renovation move in the clinic. She recently took the time to read to a child while the mother was busy and this shows how she **makes it personal**. Also, spending time to help clients with personal issues providing resources and a listening ear demonstrates Pat **makes a difference**. Lastly, Pat **makes a partnership** by volunteering her personal time to help with many organizations. These are only a few examples.

These values are the foundation of leadership regardless of position or title in our health department. This is how we will be “Building a Healthier Future for Our Community”.
